The Houston (Texas) Telegraph is also for masterly inactivity as the southern policy, and says:—

Though possessing power to pass measures, their position is embarrassing. Their embarrassment will continue and be aggravated by such masterly inactivity by the South States, as shall compel the radical Congress to take the initiative of new measures, as the initiative of new measures, for heaven's sake!"

The Columbia (S. C.) Carolinian, one of the most violent of fire-ceating papers, it is that states are as a porter, an obstinate, but all his answers were straightforward and satisfactory. The Columbia (S. C.) Carolinian, one of the most violent of fire-eating papers, takes the same view:—

Shall the fanatical radical usurp the last vestige of the glorious constitution bequeathed to us by our fathers? Veteran soldiers, to the front—march to your tents, oh, Israel! CHICAGO can boast of three skating parks and two rinks now. A year ago such a thing as a rink was unknown there. On the 13th of December last

the first one, the Wabash Avenue Rink, was opened, and every one prophesied that it would be a failure—that it was that it would be a failure—that it was too small, that the ice could not be kept from melting, etc., but the thaw at Christmas, which destroyed the ice on the parks, did not at all affect that in the rink—and henceforward "rinks" were favorites in Chicago. So well did the Wabash Avenue Rink succeed last winter, that it encouraged others to follow the lead of Mr. Harvey, an Eastern man, the manager; and this year a very large and elegant one has been erected on the "West side," It has a skating sprisce of 16,000 square feet, a seating capacity of 3,000 persons, and cost \$5,000. It is lighted up with two hundred gas jets, has cloak-rooms, refresument tables, ladies; gallery, etc.—in short, its a first-class rink. The "Contral," and the "Ogden"—are also good-sized ones, and will, no doubt, be well patronized.

West Point The annual report of the Board of Visitors has been made public. The examinations in the studies of the past year were very creditable to the cadets and their instructors. The discipline of the Academy is good. The discipline of the Academy is good. The Board recommend that the Assistant Professors be retained at least four years, and the Professors for a longer period; that the Chaplain be relieved from academic duties not indispensable to the preservation of discipline; that the number of cadets be increased from two hundred and ninety-two to four hundred; that the cadets on graduation, be required to serve at least two years in regiments of the line before entering the engineer or other staff corps of the army; and that the standard of qualification be raised by some form of competitive examination.

Taken before a magistrate the Mexican told his story and said: "! the Mexican told his story and said: "I have told your excellency the whole fruth about it, and now, if your excellency pleases; I will retire." "His Excellency was not a little astounded at this proposition, and informed the Mexican that "what you call, in America, enforcing an argument, we 'call, in France, an attempt at assassination, and for that under such circumstances we send people to prison."
